PROFESSIONAL SUMMARY

Flutter Developer with **3+ years** of professional experience designing, building, and deploying **cross-platform mobile applications and PWAs** using **Flutter, Dart, and Firebase**. Proficient in **BLoC and Provider state management, RESTful API integration with Dio**, asynchronous programming using **Futures, Streams, and async/await**, and **unit testing, widget testing**. Delivers production-grade applications following **Agile and Scrum methodologies**, with hands-on experience in **CI/CD pipeline management via GitHub Actions**, **code review and mentoring**, and deployments across **Firebase Hosting and AWS**. Proven ability to reduce production delays, improve user interaction, and lead front-end development from **Figma design specs to App Store and Play Store release**.

SKILLS SUMMARY

- **Mobile:** Flutter, Dart
- **State Mgmt:** BLoC, Provider, Simple State Management (Flutter)
- **Packages:** Dio, flutter_bloc, RESTful API Integration
- **Async:** Futures, Streams, async/await, FutureBuilder, StreamBuilder
- **Backend:** Firebase Realtime Database, Firebase Push Notifications, Firebase Authentication
- **Tools:** VSCode, Git, GitHub, Android Studio, Xcode, Postman
- **Deployment:** Firebase Hosting, AWS (Dev/Prod Build Deployment), Google Play Store, Apple App Store
- **Principles:** OOP, SOLID Principles, MVC, MVVM, Clean Architecture, Unit Testing, Widget Testing
- **Soft Skills:** Attention to Detail, Team Collaboration, Adaptability, Quick Learning

EXPERIENCE

- **Sysquare Technologies Pvt. Ltd.** Jaipur, India
Associate Software Developer – Flutter March 2023 – Present
 - Lead front-end Flutter developer across multiple concurrent client projects, owning the full development lifecycle from Figma design review to production deployment and performing automation tests (unit tests, widget tests).
 - Led front-end development of a **Flutter/Dart PWA** for production line management, implementing BLoC state management and Firebase Push Notifications; reduced production delays by **21%** and improved issue resolution by **25%**.
 - Delivered **iMedisave** Flutter PWA for bulk medical supply ordering with RESTful API integration and email order notifications; increased customer interaction by **31%**.
 - Deployed and managed **dev and production builds on AWS** for iMedisave, enabling structured client demos and QA testing cycles ahead of production release.
 - Managed production server deployments for Flutter PWA applications, ensuring zero-downtime releases.
 - Maintained **4+ Git/GitHub** project repositories and managed **15-20 pull requests monthly** with minor to zero conflicts; implemented **GitHub Actions for CI/CD** pipeline automation.
 - Conducted **code reviews and mentored junior associates**, reviewing pull requests and enforcing code quality standards on GitHub.
 - Participated in **sprint planning** and followed **Agile methodologies** to deliver tasks per commitment.
 - Led the release of multiple mobile applications through **QA testing** to production on **Google Play Store and Apple App Store**.
- **Sysquare Technologies Pvt. Ltd.** Jaipur, India
Software Developer Intern – Flutter August 2022 – February 2023
 - Developed the **iMedisave Flutter application** end-to-end — a bulk medical supply ordering platform backed by Firebase Realtime Database — successfully delivered to client.
 - Built stock management modules using Flutter and Firebase Realtime Database for real-time inventory tracking.
 - Implemented **internationalization (i18n)** on the company's official website, enabling multi-language support for a broader user base.
 - Participated in **sprint planning** and followed **Agile methodologies** to deliver tasks per commitment.

PROJECTS

- **JC – Flutter PWA (Dart, BLoC, flutter_bloc, Dio, Firebase Push Notifications, GitHub Actions):** Role-based PWA for garment factory floor management enabling real-time issue logging, stakeholder tracking, and push notifications. Delivered **21% drop in production delays** and **25% improvement** in issue resolution rate.
- **StockIT – Flutter PWA (Dart, Firebase Realtime Database, Firebase Authentication, Firebase Hosting, GitHub Actions):** Role-based wood stock management system with clean UI/UX. Real-time database used for stock management without a custom backend, with Firebase Authentication for user login. Improved efficiency by **10%** through fast real-time data loading; hosted on Firebase Hosting for maximum uptime.
- **iMedisave – Flutter PWA (Dart, Firebase Realtime Database, RESTful API, Dio, AWS, GitHub Actions):** Bulk medical supply ordering platform with discounted pricing, automated email order tracking, and Firebase backend. Deployed dev and production builds on **AWS** for client demos and QA testing. Led front-end from internship through production deployment; achieved **31% increase in customer interaction**.

EDUCATION

- **Manipal University Jaipur** Jaipur, India
Bachelor of Computer Applications (BCA) July 2019 – August 2022
